

ReadySet CAPTURE

RS Capture is our “bill-only” charge capture solution which documents and validates all Vendor submitted charges against the Item Master prior to submission. **RS Capture** requires Vendor “bill-only” submissions to be completed within 24 hours of surgery and free of exceptions in order to receive a purchase order.

• **ReadySet Capture** is a cloud-based tool for creating “bill-only” charge sheets from any web-enabled device.

Submit charges in 3 ways:

- 1). Enter part & serial/lot number into RS Capture (expedited P.O.)
- 2). Upload charge sheet to *ReadySet Capture*.
- 3). Take a photo of charge sheet for upload to *ReadySet Capture*.

• Streamlined format for “bill-only” charges.

• “bill-only” charges validated against the Item Master for accurate payment.

• Optional expedited P.O. process.

Features:

- Cloud-based charge capture from any device
- Item Master validation prior to submission
- 24-hour submission requirement
- Proactive identification of off-contract charges

Benefits:

- Vendors submit “bill-only” charges in a normalized format
- Contract status for all charges are validated automatically
- Timely receipt of “bill-only” charges
- Prevention of “rogue” or sub-optimal purchasing
