

ReadySet

COORDINATE

RS Coordinate is our case coordination solution which automates Vendor notification by integrating into the surgical schedule to relay the earliest possible surgical demand signal. **RS Coordinate** moves Vendor notification “upstream” by 7 days on average, resulting in improved contract compliance, sterilization throughput and surgical workflow.

Features:

- ReadySet Advanced Scheduling support
- HIPAA compliant HL7 schedule access
- Contract validation for inventory requests
- Reporting & Analytics
- + RS Track

Benefits:

- Automated Vendor notifications reduce Staff workload
- Real-time scheduling updates for all approved parties
- Proactive notification of non-compliant inventory requests/deliveries
- Actionable insights related to Vendor service level and contract compliance
